

OFFICIAL DEVELOPMENT PROGRAM

APPRENTICE MODULE

With a focus on increasing the quality of officiating, supporting and retaining officials, USA Lacrosse has created our Apprentice Module to provide more support and development resources for beginning officials. The apprentice module provides an in-depth study of the basics of officiating lacrosse setting up new officials for a successful journey in the sport.

The Apprentice Module Builds upon the basic membership official certification with courses curated for new officials as well as access to other courses on the platform and live Q and A with USAL trainers in season to help support their development.

APPRENTICE MODULE

\$35
