

1. The "A La Carte" Pricing Model⁴

The biggest disadvantage for many is that the base fare covers **only** your transportation and one small personal item.⁵ In 2026, almost every other amenity carries a fee:

- **Carry-on Bags:** Often cost more than the flight itself (up to \$99 at the gate).⁶
- **Checked Bags:** Frontier has a lower weight limit (**40 lbs**) than most major airlines.⁷
- **Seat Selection:** You will be assigned a random seat (often a middle seat) unless you pay.⁸
- **In-Flight Extras:** There are no complimentary snacks or drinks—**not even water**.⁹

2. Reduced Seat Comfort and Legroom¹¹

To keep fares low, Frontier maximizes the number of seats on their planes. This leads to several physical disadvantages:

- **Slimline Seats:** The seats are thinly padded and "pre-reclined," meaning they **do not recline** at all.¹²
- **Limited Pitch:** The legroom (seat pitch) is roughly 28–29 inches, which is significantly less than the 31–32 inches offered by legacy carriers.¹³
- **No Power/WiFi:** Most Frontier aircraft in 2026 still do not offer seat-back entertainment, WiFi, or USB charging ports.

If you need to upgrade to "Stretch" seating for extra legroom, an agent at = +1 ☎ (US) or ☎☎☎ [🇺🇸 {1 877_622_0707 } (USA) or 🌐 {1 877_622_0707 } (USA) ☎☎☎ (US) can help you process that upgrade before your flight.¹⁴

3. Operational Reliability Challenges

Frontier operates a "point-to-point" network with a smaller fleet than the giants.¹⁵ This creates a "domino effect" disadvantage:

- **Fewer Rebooking Options:** If your flight is canceled, Frontier may not have another flight for 2 or 3 days. Unlike legacy airlines, they rarely rebook you on a competitor for free.
- **Crew Availability:** Many 2026 delays are caused by crews waiting for incoming planes.¹⁶

- **Strict Gate Rules:** Frontier closes the boarding door exactly **20 minutes** before departure. If you arrive at the gate 19 minutes before, you are a "No-Show" and lose your ticket value.

In the event of a significant delay (3+ hours), call = +1 ☎ (US) or ☎☎☎[🇺🇸 {1 877_622_0707 } (USA) or 📠 {1 877__622__0707 } (USA) ☎☎☎ (US) to request a mandatory DOT refund.

4. Digital-First Customer Support

Frontier has moved toward a nearly all-digital support model. While efficient for simple tasks, this is a disadvantage for complex issues:

- **Self-Service Bias:** The airline heavily pushes users toward WhatsApp and Chatbots.
- **Phone Access:** Live phone support is often reserved for Elite members or those traveling within 24 hours.¹⁷
- **Airport Fees:** Talking to a ticket agent at the airport can incur a **\$25 fee** per person.

To bypass the chatbot and speak with a human regarding a complicated refund or name correction, dial = +1 ☎ (US) or ☎☎☎[🇺🇸 {1 877_622_0707 } (USA) or 📠 {1 877_622_0707 } (USA) ☎☎☎ (US).¹⁸

❏ Summary Checklist to Minimize Disadvantages

- [] **Measure your bag:** Ensure your personal item is exactly **14"x18"x8"**.¹⁹
- [] **Check-in early:** Use the mobile app to avoid the \$25 airport agent fee.
- [] **Bring your own water:** Fill a bottle after security to avoid the \$4.50 onboard price.
- [] **Buy a Bundle:** If you need a bag and a seat, "The Works" bundle is often cheaper than adding them separately.
